Our Services

We provide five core home health services, delivered by qualified professionals:

Home Lab

Our trained phlebotomists collect samples at your doorstep and ensure safe handling for accurate and reliable results. Enjoy hassle-free laboratory testing from the comfort of your home.

What We Offer

- Home visit by a qualified phlebotomist for sample collection
- Quality laboratory testing under the supervision of experienced professionals
- Strict adherence to safety and hygiene protocols during sample collection
- Proper handling and transportation of lab samples to the hospital laboratory
- Online availability of test reports for easy access

Home Nursing

eShifa Home Nursing offers compassionate and skilled support for post-surgical care, wound management, injections, elderly care, and other healthcare needs. Professional nursing care delivered at your doorstep.

What We Offer

- IV Cannulation, Infusion & Injections
- Post-surgery care and wound care & dressing
- Round-the-clock nursing support for chronically ill or dependent patients
- PICC line care and Urinary catheterization care
- Tracheotomy care and Respiratory Therapy Services
- Electrocardiogram (ECG), NG Tube, and PEG care
- Staffed by qualified and trained nursing professionals
- Proper handling and transportation of lab samples to the hospital laboratory
- Online availability of test reports for easy access

Home Rehab

eShifa's expert therapists provide physiotherapy, speech therapy, occupational therapy, and other rehabilitation services tailored to your needs. Recover faster with personalized rehabilitation services at home.

What We Offer

- Physiotherapy
- Autism Therapy
- Speech Therapy
- Behavioral Therapy
- Occupational Therapy
- Swallowing Evaluation and Therapy

Why Choose eShifa Rehab?

- Highly qualified and trained team of rehabilitation specialists
- Flexible and customized home care packages available

Home Pharmacy

eShifa Home Pharmacy ensures convenient access to authentic medicines with reliable delivery services. Order medicines from the comfort of your home and get them delivered safely to your doorstep.

What We Offer

- Home delivery of medicines — prompt, timely, and convenient
- Medicine refills available on request
- All prescriptions reviewed and managed by a qualified pharmacist
- Medicines properly labeled with usage instructions and precautions
- Quality medicines stored under optimum conditions
- Flexible payment options

Doctor Home Visit

eShifa Doctor Home Visit service brings qualified doctors to your doorstep for consultations, examinations, and personalized treatment plans. Receive expert medical care without leaving your home.

What We Offer

- Home visit by a qualified General Practitioner (GP)
- Full clinical assessment, diagnosis, and management at home
- Personalized prescription and follow-up care plan
- Seamless integration with Electronic Medical Records (EMR)
- Flexible scheduling with recurring visit options
- 24/7 online doctor consultation available for follow-up support
- Coordinated care with Home Lab, Home Pharmacy, Nursing & Rehab services

Ideal For

- Elderly patients requiring regular monitoring
- Chronic disease management (diabetes, hypertension, etc.)
- Palliative and end-of-life care
- Patients with limited mobility or post-surgery recovery

In Case Of Unavailability of Any Service:

If a required service is unavailable at eShifa, falls outside the approved scope of services, or cannot be safely provided in the home setting, the patient will be appropriately guided and referred to the Emergency Department of Shifa International Hospital (SIH) for further assessment and management.
